OFFICE OF THE DIRECTOR OF ANIMAL HUSBANDRY IN MYSORE, BANGALORE.

(HEALTH OF LIVESTOCK FOR THE MONTH OF JULY 1949)

Notification dated 17th August 1949.

In their order of severity outbreaks of Black-quarter, Hæmorrhagic septicæmia, Anthrax, Foot and Mouth, Sheep-pox, Contagious caprine pleuro-pneumonia and other diseases were encountered in the State, while it remained conspicuously free from Rinderpest during July 1949. Altogether 453 villages were reported to have been affected by one or the other of the above contagious and infectious diseases as against 483 villages during the previous month. The number of outbreaks were highest in Shimoga and Kolar Districts, while Hassan and Chickmagalur Districts were least affected. These diseases accounted for 1,785 attacks of which 1,213 succumbed, as against 1,556 attacks and 1,372 deaths during the previous month.

The Departmental staff undertook 36,168 Preventive Inoculations and Vaccinations against all the above diseases excepting Foot and Mouth disease as against 37,752 inoculations and vaccinations during the previous month. In the absence of a reliable method of Vaccinatory intervention, other prophylactic measures were adopted against Foot and Mouth disease.

The prevalence of disease conditions attributable to helminthic infestations was reported from 153 villages by far the largest number of which belonged to Ramanagar Taluk accounted for 39 deaths as against 198 villages affected and 49 deaths during the previous month. The special staff attached to the Parasitic disease control and the Sheep Breeders' Associations of this Department dosed 11,543 animals against Parasitic affections as against 13,409 animals during the previous month.

The rest of the Live-stock remained free from diseases during the month and, fodder and water were generally available throughout the State.
